Journal of Industrial and Management Optimization

Special Issue on: "Global Supply Chain Management in Emerging Economies"

Guest Editors

Prof. Nan LIU, Zhejiang University, Hangzhou, China

Prof. Xiaoqiang CAI, The Chinese University of Hong Kong, Hong Kong, China

Prof. Yanzhi LI, City University of Hong Kong, Hong Kong, China

Prof. Qingwei JIN, Zhejiang University, Hangzhou, China

Motivation and Overview

The rise of emerging economies, such as Brazil, Russia, India, China and South Africa, is changing the structure of global trade, and therefore reinterprets the view of global supply chain management. As regional economic powerhouses with large populations, resource bases and markets, they play important roles in every segment of global supply chain. In their efforts to ensure sustainable development, not only emerging markets, but also developed countries are facing big challenges that come from fundamental problems associated with their traditional economic and political systems.

This special issue aims to collect recent original contributions related to using optimization methods to explain and solve the opportunities and challenges of global supply chain management, with special emphasis on emerging economies. It will contain revised and substantially extended versions of selected papers presented at the [2015 Global Supply Chain Management \(GSCM\) Conference](#).

Subject Coverage

Suitable topics include but are not limited to:

- Internet-based global trade and supply chain
- E-commerce based global trade and supply chain
- Green supply chain and social responsibility

- Risk management of global supply chain
- Resilience in global supply chain
- Intermodal coordination in global logistic network
- Market analysis in global supply chain in emerging economies
- Global shipping and transport supply chain network
- Managing intermodal transport
- Strategic alliances and relationship management in global supply chain
- Global supply chain negotiations and contracts

[Notes for Prospective Authors](#)

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. (N.B. Conference papers may only be submitted if the paper has been completely re-written and if appropriate written permissions have been obtained from any copyright holders of the original paper).

All papers are refereed through a peer review process.

[Important Dates](#)

Submission deadline: 31 May, 2015
